ABOUT ME

I work in web development, building modern, fast, and fully responsive websites for all devices. I continuously learn new technologies to keep improving my skills. I can work effectively both independently and within a team, with special attention to high-quality interfaces and every detail.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React, Next.js, Tailwind CSS, Responsive Design, REST API, Axios, Vite

Backend: Node.js, Express.js, Prisma ORM

Databases: PostgreSQL, MongoDB

Tools: Git, GitHub, Figma, VS Code, Vercel, npm

PRACTICAL SKILLS

- Pixel-perfect layout from Figma designs and fully responsive layout
- Building landing pages, corporate websites, and online stores
- API integration and performance optimization
- Working with Git and version control, debugging and fixing issues
- Designing with modern component-based architecture

EXPERIENCE

Frontend Developer (Freelance Projects)

- Developed real projects for clients: small business websites, a corporate website, and online stores
- Worked with the modern React + Next.js stack
- Built responsive layouts and integrated various third-party services (APIs)

PROJECTS

- SEO Rank Tracker Dashboard
- Corporate website for an IT company
- Online stores
- Landing pages for businesses
- Telegram bots
- Various React / Next.js projects
